"An excellent resource that has many outstanding features. It enables schools to see SRE as part of their response to 'Every Child Matters' and it deals with a wide range of contemporary issues. As a teacher I very much liked the contributions made by real children from different schools and would use this as a starting point for a class discussion. The characters used are also very real and their everyday concerns reflect the concerns of children and young people everywhere. There is a strong emphasis on the fact that although we are all different and unique individuals what we deal with is normal and we need to find out what is right for us.

The resource is easy to use and allows pupils to use as part of individual learning programmes. There are useful 'buzz words' that deal with frequently asked questions and the scenarios used are recognisable as everyday."

John Bennett - Education Consultant and former Chair of National Health Education Group.
